Credit Counseling

We work with approved debt consolidation organizations that negotiate with over 50,000 creditors and we are confident that we will be able to help you to develop a debt consolidation repayment plan or credit card management plan that will fit your budget and help you to reach your goal of becoming DEBT FREE!

Remember THERE IS LIFE AFTER DEBT and we will help you get back on track.

Credit Card Management

If you carry a balance, a credit card debt can be like a very expensive loan made by banks, gasoline companies or department stores. These credit card debts yield high profits to their issuers for several reasons. The most important is the high rate of interest (as high as 33% each year). Interest from a credit card alone can account for the bulk of the profits earned by the bank that issued you the credit card. Also, many credit card companies charge an annual fee for issuing you the credit card, and most of these companies charge late fees, over-the-limit fees and other miscellaneous charges. Finally, the banks and loan companies profit by charging the

merchants and service providers a fee each time a customer uses the loan company's credit card in the merchant's establishment. Our debt consolidation and credit card management program can help you put an end to these high interest credit card debts. A Certified Debt Counselor will contact you within the next 24 hours with your free consultation. Please have your most recent Credit Card Statements available and we will show you how to consolidate them to save you from 20% to as much as 60% in monthly payments!
